Relevant Experience

Senior Frontend Engineer, **Leancore Technologies**, Oct 2023 - Present

- Developed scalable frontend solutions with Next.js, TypeScript, and Tailwind CSS, boosting workflow efficiency by 25% and cutting development effort by 20%
- Optimized API state management with RTK Query and Redux Toolkit, improving reliability, caching, and overall application performance.
- Engineered end-to-end OTA workflows for flight booking, PNR management, group ticketing, ticket issuance, voiding, and cancellations.

Frontend Developer, **Bit Byte Technology**, Mar 2022 - Sept 2023

- Enhanced UI and optimized performance for the Monarch Mart and Noir BD e-commerce platforms using React and Redux, increasing user engagement by 20%.
- Developed core e-commerce features, including shopping cart, checkout, payment integration, and customer interaction workflows, improving order completion rates and user experience.

Frontend Developer, **Eunoia I.T Solutions**, Remote | Nov 2017 - Feb 2022

- Developed and maintained responsive websites using HTML, CSS, JavaScript, and jQuery, ensuring cross-browser compatibility and optimal user experience.
- Built reusable UI components and interactive web features, improving development efficiency and website performance.

Education

Dhaka International University

B.Sc. in Computer Science and Engineering | 2020

Skills
